RECYCLE BIN TO REST OF

1)A process is a _____.

1.single thread of execution.
2.program in the execution
3.program in the memory
4.Task

Correct Answer : **2**

2) The word processing feature that catches most random typographical errors and misspellings is known as _____.

1. Grammar checker
2. Spell checker
3. Word checker
4. None of the these

Correct Answer : **2**

3) What is smallest unit of the information?

1.A bit
2.A byte
3.A block
4.A nibble

Correct Answer : **1**

4) What is the term for a temporary storage area that compensates for differences in data rate and data flow between devices?

1.Buffer
2.Bus
3.Channel
4.Modem

Correct Answer : **1**

5. How is the data stored on the diskette?

1.Ink
2.Laser bubbles
3.Magnetism
4.Circuits

Correct Answer : **3**

6) Which of the following is the smallest visual element on a video monitor?

1. Character
2. Pixel
3. Byte
4. Bit

Correct Answer : **2**

7) Which of the following natural element is the primary element in computer chips?

1.Silicon
2.Carbon
3.Iron
4.Uranium

Correct Answer : **1**

8) Which of the following programs enables you to calculate numbers related to rows and columns?

1.Window program
2.Spreadsheet program
3.Graphics program
4.Word program

Correct Answer : **2**

9) Which of the following is an output device?

1.Keyboard
2.Mouse
3.Light pen
4.VDU

Correct Answer : **4**

10) Which of the following is an input device?

1.Plotter
2.Printer
3.VDU
4.Mouse

Correct Answer : **4**

11) Which of the following is the extension of Notepad?

1. .txt
2. .xlsx
3. .pptx
4. .bmp

Correct Answer : **4**

12) BIOS is used?

1.By operating system
2.By compiler
3.By interpreter
4.By application software

Correct Answer : **1**

13) What is the mean of the Booting in the system?

1.Restarting computer
2.Install the program
3.To scan
4.To turn off

Correct Answer : **1**

14) A computer is accurate, but if the result of a computation is false, what is the main reason for it?

1.Power failure
2.The computer circuits
3.Incorrect data entry
4.Distraction

Correct Answer : **3**

15) The central processing unit is located in the _____.

1.Hard disk
2.System unit
3.Memory unit
4.Monitor

Correct Answer : **2**

17.What type of computers are client computers (most of the time) in a client-server system?

A. Mainframe B. Mini-computer C. Microcomputer D. PDA

ANS : C

17) What is the full form of RAM?

1.Remote Access Memory
2.Random Access Memory
3.Remote Access Memory
4.Random Access Memory

Correct Answer : 2

18) Which of the following is not considered hardware?

1.Operating system
2.CPU
3.Keyboard
4.Hard disk

Correct Answer : **1**

9) Which of the following is exclusively a sequential access storage dev

Hard disk
Floppy disk
Magnetic tape
DVD

orrect Answer : **3**

20) What is the full form of USB?

1.Unshielded System Board
2.Universal System Board
3.Unidentified System Bus
4.Universal System Bus

Correct Answer : **4**

21) Which one of the following is not a form of data storage media?

1.A database
2.Magnetic tape
3.Magnetic disc
4.Optical disc

Correct Answer : **1**

22) Which of the following numbers is a binary number?

1. 1 and 2
2. 0 and 0.1
3. 2 and 0
4. 0 and 1

Correct Answer : **4**

23) Which one of the following is an example of the browser software?

1.Microsoft Word
2.Notepad
3.Internet navigator
4.Internet explorer

Correct Answer : **4**

24) Which one of the following commands can be used to work on a file?

1.Ctrl + XY
2.Ctrl + 2
3.Ctrl + C
4.None of the these

Correct Answer : **3**

25) What is the use of the computer port?

1. Download the file via the internet
2. To connect with other devices
3. To reduce the internet speed
4. None of the these

Correct Answer : **2**

26) The speed of a modern printer is generally measured in _____.

1.LPS
2.PPM
3.PPS
4.DPI

Correct Answer : **2**

27) Which of the following statement is correct about the virus?

1.The virus is a small program that infects a large program in the user system.
2.The virus is a file of the hacker.
3.The virus is an operating system that controls the entire OS.
4.None of the these

Correct Answer : **1**

28) The term A: \ refers to ___.

1.Filename
2.Root directory
3.Hard disk
4.Subdirectory

Correct Answer : **2**

31) The four bits are called _____.

1.Byte
2.Nibble
3.Octet
4.Bit

Correct Answer : 2

32) What is the full form of the EEPROM?

1.Electrically Erasable Process Read-Only Memory
2.Electrically Erasable Programmable Read-Only Memory
3.Electrical Erase Program Read-Only Memory
4.Electron Erase Program Read-Only Memory

Correct Answer : 2

31) Which of the following statement is correct about the URL?

1.URL is a software that connects to the internet
2.URL is the address of the web page
3.URL is the domain name
4.All of the these

Correct Answer : 2

32) Which one of the following parts is called the brain of the compute

1.ALU
2.Monitor
3.UPS
4.CPU

Correct Answer : **4**

ne output, which consists of images, video, and sound, is described as _

M

phics of the system
timedia

ct Answer : 4

34) What kind of file does the "BAK" extension refer to?

1.System file
2.Backup file
3.Boot file
4.Binary file

Correct Answer : 2

35) Which of the following device is used for both input and output?

1.Monitor
2.Speaker
3.Scanner
4.Modem

Correct Answer : 4

36) Which of the following statement is correct about the DVD?

1.DVD is an optical disk.
2.DVD is very costly.
3.It is not a portable device, i.e., it cannot be carried anywhere easily.
4.It has very poor video and sound quality.

Correct Answer : 1

37) Which type of topology is best suited for large businesses which must carefully control and coordinate the operation of distributed branch outlets?

1.Ring
2.Local area
3.Hierarchical
4.Star

Correct Answer : 4

38) What kind of transmission medium is most appropriate to carry data in a computer network that is exposed to electrical interferences?

1.Unshielded twisted pair
2.Optical fiber
3.Coaxial cable
4.Microwave

Correct Answer : 2

39) A collection of hyperlinked documents on the internet forms the ?.

1.World Wide Web (WWW)
2.E-mail system
3.Mailing list
4.Hypertext markup language

Correct Answer : **1**

40) The location of a resource on the internet is given by its?

1.Protocol
2.URL
3.E-mail address
4. Storage place

Correct Answer : **2**

41) The term HTTP stands for?

1.Hyper terminal tracing program
2.Hypertext tracing protocol
3.Hypertext transfer protocol
4.Hypertext transfer program

Correct Answer : 3

42) A proxy server is used as the computer?

1.with external access
2.acting as a backup
3.performing file handling
4.accessing user permissions

Correct Answer : 1

43) Which one of the following would breach the integrity of a system?

1. Looking the room to prevent theft
2. Full access rights for all users
3. Fitting the system with an anti-theft device
4. Protecting the device against willful or accidental damage

Correct Answer : 2

44) Which software prevents the external access to a system?

1.Firewall
2.Gateway
3.Router
4.Virus checker

Correct Answer : 1

45) Software programs that allow you to legally copy files and give them away
at no cost are called which of the following?

1.Probe ware
2.Timeshare
3.Shareware
4.Public domain

Correct Answer : 4

46) The term FTP stands for?

1.File transfer program
2.File transmission protocol
3.File transfer protocol
4.File transfer protection

Correct Answer : 2

47) Which one of the following is not a network topology?

1.Star
2.Ring
3.Bus
4.Peer to Peer

Correct Answer : 4

48) The term WAN stands for?

1. Wide Area Net
2. Wide Access Network
3. Wide Area Network
4. Wide Access Net

Correct Answer: **3**

49) The term LAN stands for?

1.Local Area Net
2.Local Area Network
3.Local Array Network
4.Local Array Net

Correct Answer : 2

50) In specific, if the systems use separate protocols, which one of the following devices is used to link two systems?

1.Repeater
2.Gateway
3.Bridge
4.Hub

Correct Answer : 2
